General terms and conditions for **International shipments**

All orders from Nuera Air are shipped under the following terms and conditions:

POWER UNIT/ HOSE WARRANTY:

Smart Deco power units are warranted for 5 years.

Smart Powerline power units are warranted for 2 years;

Smart handles and hoses have a 2 year warranty. Warranty covers parts only. All power units, accessories, or components used in commercial applications have a 90 day warranty. Labour and shipping costs are not covered. A warranty claim must be filed, following our warranty policy, within 3 months of the component failure to be covered by warranty.

Claims covered under warranty will be honored by a credit invoice with credit placed on your account.

Nuera Air is the leading full line supplier of central vacuum systems. From our headquarters in Montreal, Canada, we conduct business in more than 60 countries worldwide, offering a one-stop source of central vacuum systems to distributors and dealers.

Superior performance with cleaner air built in.

A complete cleaning system.

A Smart central vacuum system has a power unit and a cleaning set that work together as a team. The power unit is the heart of the vacuum, providing the power, and is generally located outside of the living space like a garage, basement, or utility room. Inside the home, the cleaning set is the perfect partner. It's what turns a powerful performance into a pleasurable experience, with every cleaning tool at hand, ready to clean any type of surface in your home.

Nothing but clean air

Smart central vacuums feature a unique double filtration system. First, the self-cleaning filter offers worry-free performance and no need to use a paper bag. Secondly, the optional External HEPA Allergy Plus filter purifies the air to 99.97% and then diffuses it through our soft air diffusion system eliminating the need to exhaust outside.

Intelligent design (On Select Models)

The Smart central vacuum system is sleek and quiet, yet robust and powerful. It offers intuitive and convenient product features combined with easy-to-use information displays. The cleaning set is designed for optimal dirt and dust pick-up, yet ergonomic and quiet.

Reliability built-in

The Smart central vacuum power unit always ready when you need it, just plug in the hose and go.

SMI700D

Construction	Plastic body
Airwatts	700
Waterlift, mm	3670
Airflow, L/s	54
Dirt capacity, L	31
Filtration	Self-Cleaning filter with Gore®
Size, mm	1068 x 465 x 380
Boxed weight, kg	11.3
Boxed size cubic	5.3
Sound level, dBa	74

Replacement parts

Motor	140365
PC Board	100714

SMI650D

Construction	Plastic body
Airwatts	675
Waterlift, mm	3470
Airflow, L/s	52
Dirt capacity, L	31
Filtration	Self-Cleaning filter with Gore®
Size, mm	1068 x 465 x 380
Boxed weight, kg	8.7
Boxed size cubic	11.3
Sound level, dBa	74

Replacement parts

Motor	140365
PC Board	100713

SMI600D

Convenient versatility readily at hand.

Real performance depends on the cleaning set.

The Smart Cleaning Set combines an ergonomic handle for comfort and easy maneuverability with a fully sealed hose system to ensure powerful suction and superior cleaning.

Variable speed control

Light weight ergonomic handle to help reduce strain on the wrist and arm with finger tip controls easily adjusts the amount of suction with a touch of a button.

3-in-1 cleaning tool

Innovative and unique, the convenient onboard 3-in-1 cleaning tool easily converts from a crevice tool to a dusting brush and a fabric tool, to clean all surfaces from floor to ceiling.

Telescopic wand

Clean stairs and those hard to reach places from ceiling to floor effortlessly with the convenience of a telescopic wand.

Combo floor/rug tool

Vacuum many different floor types within your home with one tool that easily switches from bare floor to carpeted surfaces.
